Hi Marianne,

Attached please find a copy of the Western Division of the American Fisheries Society cover letter and recently adopted resolution regarding the proposed Bristol Bay mining project (Pebble). Please let me know if and how the WDAFS can be of further assistance in this matter.

Thanks for your time,

Lori Martin, President WDAFS

Marianne,
Thank you for your reply. I am also requesting that the Western Division of the American Fisheries Society send its resolution on the Pebble Mine to USEPA. Should that go to you or to some other person?

Cheers,
Bob

Subject: Pebble Project

Marianne,
We formally request that you please add the attached article to your file as regards the Pebble Project review by USEPA.

Although current concerns seem centered on the Pebble Mine, also note that mine claims in the basin cover about 10 times the area of the Pebble Mine. We see the potential for another Coeur d'Alene Area or Clark Fork Basin Superfund mess here in the drainage of the world's currently most productive and sustainable sockeye salmon fishery.

If you seek further information, please feel free to contact us.

Thank you,
Robert M. Hughes
